

# Crivitz 4K T.E.A.L Program

## What is T.E.A.L?

**Together Everyone  
Achieves Learning!**

We try to offer a parent class or family activity once a month. We offer a variety of times depending on the session to give every family the opportunity to attend.

The times include:

- ☐ School Day AM
- ☐ School Day PM
- ☐ School Day AM & PM
- ☐ After School

The parent classes typically last 1-2 hours and the family events last 2-4 hours. These sessions are designed to help families support their child's learning along with a few fun family events!

## Previous & Future Outreach Ideas

- ★ 4K Graduation
- ★ Open House/Information for Incoming Students
- ★ Make & Take 4K Skills
- ★ O.T. Handwriting/Fine Motor with Ms. Maria
- ★ Cookies with Santa
- ★ Speech/Language Q&A with Mrs. Kamps & Mrs. Toerck
- ★ Parent's Night Out: Kids Drive-in Movie
- ★ Easter Bunny & Games
- ★ Crivitz Library
- ★ Picky Eating/Dental Hygiene with Dr. Pepin
- ★ Chiropractor Information
- ★ Marinette Rec Center Opportunities

As a parent, I most enjoyed being able to learn about proper child development and tips to help our children succeed with different forms of learning. It was extremely eye opening to learn about how child development has changed over the last few decades and how a few small changes can help our children learn better.

- Ashley Dudkiewicz

We attended most of the TEAL events and made it a priority to do so because they were so well planned and fun. It fostered a strong sense of community between the school and families. We could tell the teachers put their hearts into our kids and making sure the TEAL events were well thought out and successful.

- Kim

Gruszynski

I began my daughter's educational journey with her hand-in-hand. With these activities throughout the year, she was afforded an opportunity and an experience to share her love of school with her loved ones, which will surely cement the foundation of her passion for learning. Being there at the very beginning, I truly believe, is a blessing that promotes the importance of education.

- Traci

Plucker

A benefit of the TEAL programs is connecting parents with early education information, interventions, and programs that they may not be aware of. These events added value not only to the children but the community

- Erin Evosevich

The TEAL program was wonderful for my daughter. She started 4K last fall and was a very shy, quiet little girl. As time went on she got to be more comfortable and wanted to participate more in school/after-school activities. I am so grateful for what everyone does to provide this for our kids.

- Jennifer  
Poels

The TEAL programs are a non threatening, inexpensive way to involve parents in education. If parents are comfortable interacting with teachers, they are more likely to be involved in the education process. It's a win-win situation.

- Ginger Deschane

The TEAL events were very valuable sessions that our entire family attended. I appreciate the extra time and effort put into these events! Thank you for your dedication to our children!

- Becky Arpke

The students of 4K are at such a critical age for learning to share, socialize and communicate. The TEAL programs adds additional fun and excitement to their learning. The TEAL program, along with the 4K team, is a great asset to our community!

- Kristyn Strojny
